Change the settings

(Control panel labels: Farb-licht, Auto, Blau, Rot, Gelb, Grün, Dampf, Heizung, Trocknen, Option, Feuchte, Temp., Heizdauer, Startzeit, Prog., Sauna mit Feuchte, Licht, Sauna, Lüfter, Ein 1 Aus 0, display: 100°)

## Quick start:

1. Switch on the control unit.
2. select the required mode of operation (press the button 'Sauna' or 'Sauna mit Feuchte' once – the light next to the button blinks)
3. Start the mode of operation (press the button Sauna or Sauna mit Feuchte).

Automatic start (Timer)

1. Switch on the control unit.
2. Select the "Startzeit" (Start time) display.
3. Set the start time.
4. Press the button with the desired mode of operation (Sauna or Sauna mit Feuchte) to activate the timer. The lamp next to the button blinks

Set / change the set values:

Use the ⬇ or ⬆ buttons to select the respective set values and then press the [Prog.] to access the programming mode to change the set setting values. Now enter the desired set value using the ⬆⬇ buttons and press the [Prog.] button again to end the programming mode.
